Let's get the Ideas Flowing

Our meeting on Tuesday evening was well attended and lots of great ideas were discussed.

On the agenda was our communications between group members.

It was agreed that our website should be our main link with each other and the main source of information and communication amongst the group and our friends.

Special thanks to Liz, who did the groundwork setting this up for us. She has done a great job.

Thank you also to Marc and Troy, who will be assisting Liz with the website moving it to the next level.

Next, we bring all the ideas from tonight's meeting that are important to reflect who we are as a group.

We need a dynamic working site to share between ourselves and our friends. Also, other likeminded individuals who may be interested in becoming community with us.
