Open Forum – Open Microphone

On Tuesday Evening, we had a great brainstorming session. Our group put forward their ideas in moving ahead with our permaculture community and the groups within it.

We identified key groups within our permaculture and we split up into several discussion groups.

The gardening group had great ideas and their seems to be a lot of green thumbs amongst us.

The teaching group also put forward their ideas in moving forward with home schooling.

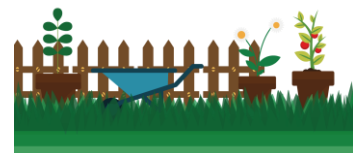

Overall the night was very well received and we managed to make some positive inroads in moving forward.

We need to keep our momentum going.

Positivity and high vibration is the key.

Gardening

Services

Health

Teaching

If you have skills, ideas or suggestions that you want to share with the group, please don't be shy. We are growing and evolving constantly.
